Applications

- Interior walls
- Fireplace surrounds and cooktop areas (temperature must not exceed 338° F)
- Shower walls and tub surrounds are acceptable **except in any submerged water area (or anywhere water can accumulate)**
- Not suitable for steam showers, pools or fountains.

Variation in color and metallic texture such as small imperfections (lines, dots, wrinkles) in the backing may be present and can be visible once installed. These are natural characteristics of the handcrafted process and do not affect the integrity of the tile.
